Subject: Request for Reconsideration of 2024 Maintenance Increase Based on Actual vs. Projected Expenses

Dear Laurette Valdez,

I am writing to formally request that the cooperative's **9%** maintenance increase, which was implemented based on the budget projections outlined in the memo dated November 27, 2023, be reconsidered and reduced to align with the actual operating cost increases incurred by the cooperative.

The basis for this request is the significant discrepancy between the Board of Directors' projected expense increase for 2024 and the actual costs realized.

The November 27, 2023 memo indicated that the Board projected total operating costs to increase by **\$218,800** in 2024. This projection appears to have been the primary justification for the substantial **9%** maintenance fee adjustment.

However, based on subsequent financial reviews and actualized figures, the total actual increase in operating costs for 2024 amounted to only **\$100,287**.

The initial projection was approximately **54%** higher than the actual increase in expenses. This overestimation has resulted in residents being charged a maintenance fee premium that is disproportionate to the actual financial needs of the cooperative.

Therefore, I respectfully request that the Board of Directors, in conjunction with your management firm, re-evaluate the current maintenance fee structure. The **9%** increase should be adjusted downward to reflect the actual cost increase of **\$100,287**, rather than the inflated **\$218,800** projection.

Reducing the maintenance increase to match the actual expense increase ensures fiscal responsibility and fairness to all shareholders, aligning our contributions with the true operational requirements of the building.

Thank you for your attention to this matter. I look forward to a prompt review and adjustment.

Sincerely,

Peter Merson

To All Riveredge Shareholders

Re: Maintenance Increase

The Board of Directors of the Riveredge Owners, Inc. has reviewed the actual operating expenses for the first nine months of 2023 and a forecast of future expenses in 2024. Unfortunately, the expenses of operating the Riveredge have increased greatly in the past two years and the Riveredge cannot continue to absorb these increased costs.

The Board projects dramatic increases in the cost of operating the Riveredge building and property in 2024. These include projected increases of \$110,000 for fuel oil, \$23,000 for insurance, \$8,500 for real estate taxes and \$77,300 in other expenses.

After careful consideration the Board of Directors has voted to increase the monthly maintenance by 9%, an increase of \$1.58 per share, starting on January 1, 2024.

The Board understands that no one enjoys these increases, but they are essential at this time. As always, the Board will closely monitor every cost incurred and assess the fiscal status of the Riveredge as we move forward. The Board asks for your continued support as we plan for the challenges ahead.

Shareholders who use on-line paying for their maintenance and parking must notify their banks of the changes.

Very truly yours,

WESTCHESTER PROPERTY MANAGEMENT GROUP INC.

Laurette R. Valdez
